

# BIKE MECHANIC SERVICES

Breakaway Cycles are on board to keep your wheels rolling as Port to Port's mechanical support. Dallas & the team will be there to assist at every start and finish line. Breakaway Cycles will be able to perform everything from building your bike, basic adjustment and tuning, spares and overnight repairs if the need arises, right through to detailed service requirements including basic suspension servicing (pending parts availability).

They can be contacted on (02) 4973 4446 or via email [breakawaycycles@bigpond.com](mailto:breakawaycycles@bigpond.com). Breakaway Cycles is located at 65 Dora St, Morisset NSW 2264

## Pre-Event Services

Want to get your bike built or have pre-race service on Wednesday 22 May? Breakaway Cycles are taking bookings for build & servicing. Spaces are limited so make sure you pre-book to avoid missing out.

If you're arriving before Wednesday and would like your bike built or serviced, we recommend you call ahead and book with the in-store team at Breakaway Cycles.

## Event Services and Schedule

Breakaway Cycles will have highly experienced mechanical repair staff at the daily race villages who will aim to get you back on your bike as soon as possible after your race. We encourage all riders to check in with their mechanical staff immediately after their race to allow the best possible opportunity of getting any repairs completed prior to the following race day. Remember to wash your bike down first!

Breakaway Cycles will be at the start line 2 hours prior to the start of each stage to begin taking bookings with work commencing 1.5 hour prior to the start of each day stage. Breakaway cycles will be at every finish line except for Stage 4.

All repairs for the event are booked in on a first in first served basis. On the day servicing will be quoted prior to the start of all repairs and will be based on the condition and requirements of the bike. As a basic indication their labour rate (not including parts) will be charged out at \$120 per hour. Price will vary for specialist repairs such as brake bleeding and fork servicing.

Breakaway Cycles will carry a large array of Maxxis tyres and tubes, Shimano drivetrain components, tyre sealant and a multitude of miscellaneous spares parts including grips, wheels, handlebars, stems, bottom brackets, brake pads, rotors and cabling. If there is something you'd like pre ordered please bring it with you or get in touch with the store on (02) 4973 4446 prior to the race and they'll do their best to accommodate.

## Be bike ready . . . Top 5 Tips to come prepared:

- 1: Have your bike professionally serviced prior to the race, including suspension!
- 2: Fit new brake pads
- 3: Fit new tyres and sealant
- 4: Fit a new chain and carry a spare joiner link
- 5: Buy and bring a spare derailleur hanger
